RE-ENGINEERING YOUR LIFE'S JOURNEY

Introduction:

Enshrine Placements specialises in Engineering and Technical Recruitment in Africa. We are a Unique Recruitment Service Provider servicing the Engineering and Technical Sectors in Africa covering all the disciplines required in the managing, designing, procuring, constructing, commissioning, operating and decommissioning of engineered assets for the built environment.

We offer affordable service without compromising quality, to ensure your business has the very best resources to leverage projects and nurture company growth at all times.

Enshrine has a finger firmly on the pulse of trends in recruitment coupled with advancements in information technology and social and business networking. We have developed a virtual model which has the capacity to accommodate Enshrine Agents and Collaboration Partners working remotely from any location. Our Managing Member/ Founder is based in Nairobi, Kenya and we have an Enshrine Agent scheduled to relocate to Lagos, Nigeria. in June 2016. We have Collaboration Partners in Zimbabwe, DRC and Central Africa. Our South African footprint of Enshrine Agents and Collaboration Partners are located in 4 Provinces: Gauteng; Free State; Western Cape and Kwa-Zulu Natal. We continue to grow our footprint into Africa. Our Managing Member is the Sector Group Leader of [ENEX global one stop recruitment for Mining, Construction & Heavy Engineering \(MCHE\)](#). ENEX is a Global Executive Search Network with coverage and full representations in over 33 countries throughout Western, Central and Eastern Europe, Africa, Southern and Central America and Asia. Ideally positioned, within the ENEX partnership & the global market place, to source & place scarce engineering, technical & scientific skills across borders & cultures.

Our model incorporates headhunting and conventional recruitment, and the best that modern technology can offer in terms of back-office administration. Choosing Enshrine Placements as your recruitment service provider means that we work in close contact with you, managing your recruitment needs efficiently through strategising and forecasting, and effectively becoming a part of your business. Above and beyond making effective answer to your recruitment needs, we aspire to provide service that will simultaneously build your business and add value to your brand.

We have close working relationships with SAIMEchE and an in-depth knowledge of the engineering, manufacturing, production and services industry. Also we are BEE compliant - Level Four.
